MANAGED ANTI-VIRUS

# Total endpoint security for your business

What is worse than a Virus?
Time and money wasted recovering from one!

Every minute counts in today's business. Stop wasting your valuable and scarce IT resource time and energy on the selection, testing, planning, deployment, updating and reporting of your Anti-virus software.

TDAV's Managed Anti-Virus service provides the skilled IT resources, domain expertise, centralized monitoring and management facilities and proactive approach to ensuring the protection of your desktops and laptops against the ever-present threat of viruses, spam and malware attacks.

Threats facing today's SMB's

- Email worms
- Network viruses
- Spyware
- Data theft
- Phishing attacks
- Email spam and

95% of small and midsize businesses have an antivirus installed, but 74% still experienced attacks last year!

Key Features

Enterprise Class Solution
Encompassing more than just anti-virus, this solution supports full endpoint security

Most Advance proactive technology
Comprised of intrusion prevention, proactive detection and behavioral analysis

Anti-spam for desktops
Based on recurrent pattern detection, content agnostic technology that detects and blocks spam in any language

Software firewall
Allows laptops outside of the network to be fully protected

Comprehensive Reporting Provides Transparency
A wide range of detailed reports are provided monthly to ensure you have visibility of what is happening and that you are being constantly protected

Fully Monitored System
We monitor the software to ensure it is always working, has the latest virus protection and will act immediately if there is an issue

Benefits of a TDAV Managed Anti-virus Solution

- **Fully managed solution for the same price as your anti-virus software!**
  We include enterprise class end point software, monitored by us 24/7, and managed by a team of technical experts that will provide you with regular reports to ensure you can see the devices in your business are protected at all times!

- **Reduce operating costs**
  A security incident can stop you from being 100% productive at work. This costs the company a lot of money in lost productivity and in opportunity costs. A virus can hit many machines and take weeks to eradicate. Removing this risk will save you money!

- **Protect your company's critical assets and information**
  Proactive technologies ensure an additional protection layer against all types of unknown malware, targeted attacks and Internet threats.

- **A flexible security solution**
  Our advanced security features offer the appropriate security for any size of company and network.

- **Comprehensive reporting**
  No longer will you be unsure of how well you are protected. We will provide you with reports monthly that let you know that you are safe!

- **Total peace of mind**
  Buying an antivirus solution, installing it, and then relying on everyone to keep it updated is a worry. Now you can rest assured that all your servers, PC's and laptop are always protected and that there are group of dedicated experts taking care of it for you 24/7.

Why our clients choose our Managed Anti-Virus Solution

Device Lifestyle Management

Stand-alone Anti-virus software:

- Provides a point solution to specific issues
- Requires manual monitoring & maintenance to remain current and effective
- Relies on end-user decisions for operation
- Does not provide consistent version control across desktops
- Does not provide centralized management

Managed Anti-virus:

- Provides proactive & comprehensive security, monitoring and management
- Centralizes the deployment and updating of software to ensure coverage and consistency
- Automates management processes to avoid errors and reduce costs
- Leverages expert IT skills
